

A PARTNERSHIP OFFERING

We invite you to evaluate a partnership offering with Nikken, Inc., the largest health and wellness company in the world.

We are looking for partners to help us achieve a worthy goal of creating one million Wellness Homes around the world.

WHY WELLNESS?

Because there is a Perfect Storm in healthcare on the horizon. There are four (4) fronts converging at the same time, to use the analogy of a Perfect Storm.

1. The aging Baby Boomer population (73 million people)
2. The escalating cost of traditional healthcare
3. The added costs, cuts and meting out of services associated with the new, rob Peter to pay Paul, "Affordable Healthcare Act" (Obama-care)
4. The inability of individuals and companies to pay for either this new "healthcare" bill that was crammed down our throats, or the fines that will be levied if we don't subscribe to it.

When these four (4) fronts come together, I would argue that the existing healthcare system, as it is structured today, is not going to survive. It is not sustainable.

Disease, prevention and self-care **must become a national priority**. The economics dictate that there is no other choice.

.....Mike Flaherty; Senior Industry Analyst

WHO SHOULD BE IN CHARGE OF YOUR HEALTHCARE?

Most people think their doctor is in charge, or the government healthcare system, or your private healthcare insurer. If you do, you are wrong. They are not responsible for your health.

Healthcare, as we know it, is misnamed. It should be named "Sick-care".

YOU are responsible for your health and for making the right lifestyle choices.

.....Dr. Jeff Balor; M.D., and Chiropractor

WHERE IS THE BEST PLACE TO START?

Consider how much time you spend at home. There is more pollution inside your home, than outside. Think about how a "Greenhouse" provides the optimal environment for growing plants.

A Wellness Home is like your own personal greenhouse. It allows you the same optimal environment as a greenhouse, making it the best place for you to grow a healthy family.

IMAGINE THIS: Children growing up in healthy homes and living healthy lives by experiencing:

- Rest and Relaxation
- Drinking Healthy Water
- Breathing Healthy Air
- Daily Exercise
- Proper Nutrition
- Ideal Weight Management

Wellness Homes are vital and essential for healthy family lifestyles.

.....Kathy Lang; Health Care Practitioner

We are partnered with Nikken, Inc. A 38 year old, international, multi-billion dollar corporation, whose focus is on Total Wellness. Nikken develops Wellness Homes as a foundation for Healthy Living.

Nikken is the largest company of its kind in the world. A debt-free, Dun and Bradstreet 5A1 rated company, doing business in 40 countries, with over 30 million customers.

In 1975, Nikken pioneered the "Total Wellness" or "Prevention" concept. Other companies have some pieces; Nikken has them all.

Nikken brings to the table 38 years of Research and Development to impact "**YOUR**" health, with a focus on prevention and financial security.

While other companies are down-sizing, laying off people or closing their doors, Nikken is actively looking for people to develop their own home-based wellness businesses.

.....Ken East; Nikken Gold Level Wellness Consultant

TIMING IS EVERYTHING

Wellness, once a foreign word to people, is now mentioned in every form of media. It's parameters are that:

1. It's recognized
2. It's the fastest growing industry
3. It's the focus of Baby-Boomer spending because it pays dividends to be healthy as you age
4. It's vital and essential to improving your quality of life.

.....Mike Dimuccio; Royal Diamond Wellness Consultant

WHY SHOULD YOU CONSIDER PARTNERING WITH NIKKEN?

Answer: the benefits to you can be enormous, both physically and financially. It allows you to create "Financial Freedom". Something you can control.

If you work for someone else, usually decisions about your employment status are determined by the circumstances and financial position of the company, not by you.

As with any partnership offering, you must do your due diligence. You must evaluate:

1. The Industry
2. The Company
3. The Products
4. The Business Plan

We have partners making \$100 a month, \$500 a month, \$1000, \$10,000, 100,000 a month.

This is a Free Enterprise offering. Free Enterprise is defined in this manner: ***You will be rewarded in direct proportion to your productivity.***

You will not be rewarded for just showing up at a job, or joining something, or signing up for something. There are no government stimulus packages, no free-stuff, just a hand up. No unions, no tenure and no golden parachutes. You can develop your own **Economic Stimulus Package**.

You work, you earn. You don't work, you don't earn. Once you do your due diligence, **YOU** determine what's right for **YOU**. We are not in the convincing or persuading business; we are in the health and wellness education and mentoring business. If you work and learn, you earn. Sadly, that's a foreign concept to a good portion of people in America today.

After reviewing this document, Please contact the person who gave you this Partnership Offering.

Thank You.

.....Ken East; Nikken Gold Level Wellness Consultant.
